Norwegian-Polish Project Meeting Kristiansund, 18/09-24/09/2023

## In terms of organisation what you liked the best ?

- ❖ The hospitality and openness I experienced from the Norwegians was something special. Images of beautiful nature from places the organizers took us will stay in my head forever. The beauty that cannot always be described in words. Those warm moments spent together during joint conferences, outdoor trips, conversations and wonderful exchanges of professional experiences remain in my heart forever. The organization of meetings and conferences at the school and the organization of field trips, were prepared at the highest level.
- ❖ The program was very interesting. We have enough time for working, presenting, making observations, exchanging experiences, discussing and drawing conclusions. We had also chance to visit beautiful places and spend time in a friendly atmosphere with our Norwegian colleagues.
- ❖ W kwestii organizacji elementy związane z terminarzem, zaplanowanymi aktywnościami czy punktualnością były idealnie dopracowane. Otrzymaliśmy ogromne wsparcie od organizatorów, którzy doskonale przejmowali rolę informatorów na linii polscy-norwescy uczniowie-szkoła.
- ❖ I liked the fact that one of the Norwegian students - Erika, felt responsible enough to take care of everyone including the people without partners. I also liked the fact that Eline was a great host, and informed us about everything.
- ❖ The fact that all the trips were organised in order for us to see the best aspects of Norway. The time management was also perfect in my opinion, there was enough time scheduled for everything.
- ❖ I really appreciate being shown so many aspects of Norwegian culture as: a daily life, cuisine, history and its entrepreneurial spirit. The schedule was challenging but it was worthy seeing all the landmarks.
- ❖ We got to have some time in school and some really nice sightseeing places and if course free time after. SALMON FARM ON TOP.
- ❖ Now, I know Norway as a country with beautiful landscapes and great educational opportunities. It was a pleasure to be a part of such a well-organized experience.

### In terms of content what you liked best ?

- ❖ Everything. It is hard to point out one thing. For the first time in my life, I am pleased with everything.
- ❖ One day we had meeting in school, we discussed problems of our world and played a game which learned me a lot. everything was perfect.
- ❖ What I liked the most were the trips to different places. It was a time when one could see a little bit of how life is in Norway and also talk to Norwegian teachers about their daily life.
- ❖ I really enjoyed visiting fish farm and seeing beautiful views(Atlantic road, fiords).
- ❖ It is extremely hard to say, because everything was an amazing experience. However, I think that the fjords and the boat ride to the salmon farm was the most exciting.
- ❖ Najciekawszą formą jaką mogłam obserwować podczas tego wyjazdu były warsztaty dla uczniów z UN Norge. Świetny pomysł na zaangażowanie uczniów w pracę nad trudnym tematem rozkładania się dóbr i środków na całym świecie.
- ❖ What I appreciate most is the conference at school in with the UN representative and the fair trade game for the students. Besides that a full day trip to Geiranger, Dalsnibba and Trollstigen. Unforgettable moments include also a visit to the local cheese factory and the orchard with cider manufacture in Tringvoll.

### Please describe what you would consider to be the most significant outcome of your participation in this mobility ?

- ❖ Being able to see the school where the student is the priority, and teachers are considered a significant part of taking care of the student's well-being.
- ❖ I found out a lot about the SDG's and was able to use my knowledge whilst creating an educational video
- ❖ I have definitely learned a lot of things, and I feel more global ready to act in a direction of improving the planet.
- ❖ Integrating with others and exchanging experiences
- ❖ I get to know new culture, spent time with other family and see how their life look like on daily basics
- ❖ The most significant aspect of the trip for me was the opportunity to get to know the Norwegian education system. It made me realize that while systems and organizations can differ, it's the individual, in this case the teacher, who has the greatest impact on the development of student.
- ❖ I met lots of great people, learnt about SDG and their promotion as well as about the trade in the world and I got to know Norwegian culture with its incredible views.
- ❖ Understanding the issue of fair trade in the world during workshops.

- ❖ The most significant outcome of this student exchange is that I got to meet so many incredible people, both from Norway and Poland. We learned, taught and showed so many things to one another. The memories we made together will always stay in my heart. Besides that, I am very grateful that I had a chance to discover Norway- both its views and people, because it is really a breathtaking country.
- ❖ Najważniejszym wynikiem tego wyjazdu było towarzyszenie uczniom w ich przygodzie. Jako nauczycielka prowadząca projekt po którym wyłoniłam najlepszych uczniów miałam możliwość pokazania im fragmentu świata geograficznego i świata wiedzy, którego nie byłiby w stanie osiągnąć bez mojej pomocy. Konsolidowanie rozwoju osobistego, z nawiązywaniem nowych relacji, zdobywaniem wiedzy i odkrywaniem piękna Norwegii było w mojej opinii najważniejsze w tej podróży. Z ogromną ważnością obserwowałam jak moi uczniowie otwierają się i wydobywają z siebie to co najlepsze zaskakując mnie wielokrotnie.
- ❖ Getting to know Norwegian teachers socially, understanding their way of thinking was a beneficial experience . Tasting Norwegian cuisine, exploring breathtaking landscapes, culture and traditions additionally contributed to the fact that the trip was unique.
- ❖ Getting to know another country, another culture. I appreciate the hours of conversations with colleagues from Norway and experiences at the education level. What divides us and what unites us. On what levels can we learn from each other. During our stay in Norway, for me the beauty of nature and nature was breathtaking. Norwegians, in turn, appreciated history and architecture during their stay in Poland.
